*** Fishing license not included, buy online at www.ifiske.ax

Catch & Release

In Åland it's recommended that you practise 'Catch & Release', which means that you don't take home more fish than you're planning to eat. You must put any fish you catch that is under the minimum sizes listed below back into the water. If a fish is seriously injured when you remove the hook, you should kill the fish as soon as possible. Good Catch & Release fishing requires good equipment. It's best for the fish if you use a hook with no barb. It's also a good idea to have a pair of pliers, hook remover or tweezers and scales in your tackle box.

Minimum sizes

Salmon 60 cm
Sea trout.....55 cm
Pike 50 cm
Pike-perch (Walleye) .42 cm
Bream 40 cm
Whitefish 35 cm
